21ST CENTURY

The object of 21st Century Blackjack Switch is for the players and the player-dealer to add the numerical value of their cards and obtain the best possible of 21 1/2, referred to as a "Natural."

A natural beats all other hands.

- Each player plays two (2) hands and places a wager in both betting spots. Players have the chance of keeping the hands that have been dealt or switching their second cards around.
- For example, if a player is dealt a king on the first card and a 5 on the second card (with the value of 15) for one hand and 6 on the first card and ace on the second card (with the value of 7 or 17) for the second hand, the player can request to switch the A & 5. The player will end up with K & A on one hand and 6 & 5 on the other hand.

Ultimate Texas Hold'em® features heads-up play against the player/dealer and an optional bonus bet. This game gives you several advantages:

- The earlier you bet, the more you can bet.
- You don't have to fold until you see all the community cards
- The Trips bonus pays odds if your final five-card hand is a Three-of-a-Kind or better.
